Customise the user interface
to match your brand

Personalised TV Experience

Titan OS helps users spend less time searching and more time enjoying their favourite entertainment. Its content-first approach delivers tailored recommendations based on viewing habits. Seamless navigation allows users to easily access endless streaming entertainment from the homepage, the Electronic Programme Guide (EPG) or with a single click of the remote control.

Expand your reach. Maximise content monetisation.

Titan OS helps your content stand out in the streaming universe and reach more viewers. Engage a wider audience with content discovery solutions. Get your content in front of your audience with prime placement, personalised recommendations and tailored entry points. Extend your reach and explore new monetisation opportunities with exclusive distribution, reaching millions of viewers across Europe.

Endless streaming entertainment on your Smart TV

Titan OS brings all the entertainment you need to your smart TV. Whether it is free, subscription-based or transactional, you can easily stream a wide range of content. Enjoy the world's favourite apps including Netflix, Disney+, Prime Video, and a rich line-up of free channels from global and local networks to suit all tastes, like A+E, Bloomberg, Canal Plus, Euronews, and many more.
